Fifty-sixth session
Agenda item 12
Report of the Economic and Social Council

Iran (Islamic Republic of) and Venezuela: draft resolution

Meeting of the General Assembly devoted to information and communication technologies for development

The General Assembly,

Recalling its resolution 55/2, entitled "United Nations Millennium Declaration", in particular paragraph 20 thereof, the ministerial declaration of the high-level segment of Economic and Social Council of 2000,[1] agreed conclusions 2001/1 of the coordination segment of the Economic and Social Council of 2001,[2] and other relevant resolutions,

Also recalling its resolution 56/183 endorsing the World Summit on the Information Society, to be held in December 2003 in Geneva and in 2005 in Tunis, respectively,

Recognizing that information and communication technologies are among the critical determinants for creating a global knowledge-based economy, accelerating growth, raising competitiveness, promoting sustainable development, eradicating poverty and facilitating the effective integration of all countries into the global economy,

Also recognizing that the information and communication technologies revolution poses opportunities and challenges, and that there is a pressing need to address the major impediments to the participation of the developing countries in the revolution of information and communication technologies, such as lack of infrastructure, education, capacity-building, investment and connectivity,

Mindful that market forces and the role of the private sector are fundamental but that they alone will not suffice to bridge the digital divide and to promote the digital opportunity, and *convinced* that partnerships involving Governments, multilateral development institutions, bilateral donors, the private sector, civil

society and other relevant stakeholders will play a key role in bridging the digital divide,

Convinced that the United Nations system should play a leadership role in promoting synergies and coherence of all efforts directed at expanding the development impact of information and communication technologies,

Welcoming the fact that the United Nations information and communication technologies Task Force was launched on 20 November 2001 and *fully convinced* that the Task Force will play an important role in harnessing the power of information and communication technologies for advancing the internationally agreed development goals,

1. *Decides* to convene a meeting of the General Assembly devoted to bridging the digital divide and promoting digital opportunities in the emerging information society for two days, preferably during the resumed fifty-sixth session of the General Assembly. The meeting will address the digital divide in the context of globalization and mobilize the political commitment of the international community to bridge the digital divide and to promote digital opportunities;

2. *Also decides* that in parallel to the plenary meetings, separate informal panels will be organized with the participation of accredited non-governmental organizations and business sector entities;

3. *Stresses* that "the plenary meeting" shall be prepared and organized in a manner supportive of the two Summit Meetings on the Information Society to be held in December 2003 and 2005, respectively, and their preparatory processes;

4. *Requests* the President of the General Assembly to make proposals in consultation with Member States, for consideration by the General Assembly, on the themes of the informal panels;

5. *Also requests* the President of the General Assembly to make proposals, in consultation with all Member States, for consideration by the Assembly, on the representatives of non-governmental organizations and the business sector entities who would be invited to participate in the informal panels, taking into account the principle of equitable geographical representation, relevant expertise and the need to obtain the perspective of developing countries;

6. *Requests* the Secretary-General to provide all necessary support for the preparation of "the meeting";

7. *Decides* to include in the agenda of its fifty-seventh session the item entitled "Information and communication technologies for development".
